Assisted in teaching Front-End Engineering students HTML, CSS, JavaScript and popular JavaScript libraries such as React and jQuery.

Education

The Iron Yard | *Front-End Engineering* | April 2016

[The Iron Yard](#) is a 12-week immersive code school where I gained the skills to become a Front-End Engineer. The first 9 weeks I attended lectures where I learned skills such as, HTML, CSS, JavaScript, Backbone.js, and React.js. The last 3 weeks were spent working on my final project, [Wander No More](#), a web app that helps you decide what to do.

Technical Projects

[Gratsee App](#) -
React Native, Node

[Wander No More](#) -
React, Bootstrap, Node

[Gorjana.com](#) -
Magento, PHP
